FORTE PELLETS®

Reduces fines losses, lubricates your equipment and prevents premature wear of the equipment

FORTE PELLETS® is a product specially formulated for the animal feed industry, whose incorporation improves the hardness of pellets and extrusions, minimizing losses and problems generated by the fines.

FORTE PELLETS® is a product of easy incorporation, a source of energy with high bioavailability and stability.

FORTE PELLETS® also contributes to the lubrication of the pelletizing plant, improving performance.

PARAMETERS	SPECIFICATION	METHOD/ STANDARD
Physical and Chemical		
Appearance	Microgranules and/or flakes	Visual
Color	Creamy - white	Visual
Melting point °C	55 - 60	AOCS Cc 1 - 25
Iodine value (g I2 / 100g)	Max. 5,0	AOCS Cd 1 - 25
Gross energy approx.	8100 kcal / kg	Information
Approx. metabolizable energy	7500 kcal / kg	Information

APPLICATION / USE

It is recommended to incorporate 1 to 2% on the oil content of the diet to be pelletized. Due to its presentation in microgranules or flakes, can be included in the pre-mix of the ingredients or directly at the greasing stage, above 55°C.

PACKAGING

Product in flakes or microgranules in 25 kg bags.

SHELF LIFE

Duration 24 months, from the date of elaboration, in condition storage facilities indicated. Avoid exposure above 50°C. Keep the container closed in a cool, dry and protected place of light.

INGREDIENTS

Oils and their saturated and unsaturated fractions of marine and/or vegetable origin, duly stabilized.
